

Riverside Superior Court website has been named one of this year's Top Ten Court Websites by the Forum on the Advancement of Court Technology (FACT). This prestigious award was bestowed during the National Association of Court Management (NACM) Annual Conference in San Antonio, Texas on July 17, 2013. For those of you who aren't familiar with FACT, they are a consortium of private-sector companies and court representatives, founded by NACM, who are dedicated to strengthening the dialogue between courts who use technology and companies who provide technology.

The *Top Ten Court Websites Award* is bestowed annually by FACT in honor of courts who are working hard to extend and expand access to public records, court services, and information online. A three-judge panel independently evaluates each website on a scale of 1-10 based on criteria such as access to public records, electronic services offered, optimization for mobile technology, and usability. The scores are then combined to award the winners.
